

TAREK ALAKRAMI

BACKEND DEVELOPER LARAVEL

INFORMATION

Date of birth: 01/02/2003

Nationality : Syrian

Gender : male

I am always superior to my colleagues at the university in the field of programming, and I always hear praise from the professors, because of my thinking in finding solutions and my quick understanding of information, but I want to delve deeper into the field of programming, and I find that the theoretical information is not sufficient, as it is easy information and far from the labor market, so I started looking for training.
